LOGNOTE -- Chief, Operations Group, 10 August 1984

1. (Williams) Following from this morning's staff meeting:

- The contractor planning the floorspace for the new building will visit each individual office in October, so we'll need to get ready. One thing that has to be decided is whether we want partial or full partitions and in what combinations. All floors will be raised 12 inches, computer floors 18 inches.
